Dear Bud and Jim:

This letter is to set forth our agreement concerning the proposed modifications of the licenses of KMFC, KSDL and KBUG to permit each station to increase effective radiated power to a maximum of 6 kW on Channel 221A at Centralia, Missouri, Channel 222A at Sedalia, Missouri and Channel 285A at Osceola, Missouri, respectively.

First, due to the mutual benefit to each of the three stations, KMFC, KSDL and KBUG will equally share the costs of filing and prosecuting a Petition for Rulemaking seeking to effectuate the above-referenced power increases and channel changes. Costs to be shared equally include, but are not limited to, any FCC filing fees, the fees of Fisher Wayland Cooper Leader & Zaragoza L.L.P. and the fees of DataWorld or other engineering service engaged in furtherance of the Petition for Rulemaking. Second, should the Commission grant the Petition for Rulemaking, each party shall bear its own costs associated with effectuating the Commission's order(s) resulting from the filing and prosecution of the Petition for Rulemaking. Such costs include, but are not limited to, application fees, engineering fees, legal fees, equipment costs and costs associated with advertising a station's new channel position. It is expressly understood that KMFC will not reimburse KSDL or KBUG for any such costs.
